

# Experience

## Founder, Photographer, Product Designer

Product Designer & UX Engineer with 15+ years of experience across digital design, frontend development, and visual systems. I run an independent UX/UI and frontend practice, building products from concept to launch in Next.js and React while iterating primarily in code. In parallel, I operate a high-end architectural photography business serving leading residential and commercial real estate clients in New York.

**Jakob Dahlin**

Product Designer & UX Engineer

New York, NY
