Professional Experience

Design Engineer | Independent | 2012 to Present

- Design and develop websites and applications with React, Next.js, TypeScript, and Tailwind CSS, with a focus on UX, accessibility, performance, and responsive design.
- Built jakobdahlin.com, a custom photography and art platform with product galleries, e-commerce integrations, licensing functionality, and digital asset delivery.
- Created Cognosco, a real estate intelligence application that provides access to NYC property information through interactive interfaces, property reports, and public data integrations.

Artist & Creative Developer | Jakob Dahlin Art | 2026 to Present

- Create original digital artwork and animations based on JavaScript, WebGL, and GLSL through a custom built application.
- Develop limited edition artwork for online sale and unique commissions for commercial property owners, hospitality spaces, corporate interiors, and private collectors.

Architectural Photographer | Independent | 2016 to Present

- Provide architectural photography for real estate developers, property owners, architects, brokerages, and hospitality clients across New York City.
- Photograph commercial and residential properties, architecture, interiors, construction projects, and landmark buildings for marketing, editorial, and corporate use.
- Captured approximately 250,000 photographs across architectural and real estate assignments in New York City since 2016. Clients include RXR and Brookfield Properties, with separate work licensed to IKEA through UK art publisher Rosenstiel's.

Childcare Worker | Örebro Municipality | 2014 to 2016

- Managed daily activities, digital documentation, communication materials, and social media content.

System Administrator | Örebro Municipality | 2013 to 2014

- Managed digital infrastructure, website content, marketing materials, and supported a recruitment platform that connected job seekers with employers.
